

Matthew Rundle

AI Product and Software Delivery

Austin, TX | 949-734-0624 | matthewtrundle@gmail.com

linkedin.com/in/matthewtrundle | Portfolio | GitHub

Product builder combining hands-on AI development with commercial analytics leadership. Built Western Magnetics' production MES and founded Domain Labs to deliver SaaS and AI workflow products for small businesses. Previously led supply and commercial analytics at Expedia Group, bringing experience in customer workflows, technical delivery and executive decision support.

Areas of focus

Workflow design | Product delivery | Customer collaboration | AI applications | Commercial decision support

Professional experience

Western Magnetics | Westmag

Jan 2026 - Present

Work focus: Manufacturing systems and applied AI

- Worked directly with production staff from initial prototype through integration, hardening and rollout, translating factory processes into software used on the floor.
- Built and deployed the manufacturing execution system (MES) and ERP that run Western Magnetics' production, quality, purchasing, inventory and shipping workflows.
- Designed work-order, routing and station workflows with role-based operator interfaces and an event stream that records production state changes.
- Built the platform with Next.js, PostgreSQL, Prisma and Docker, using API boundaries and an audit trail for state changes.
- Used AI coding agents throughout development while owning code review, refinement and hardening of generated software.

Domain Labs | Austin TX

2025

Founder, AI and SaaS Solutions

- Partnered with small businesses to design and build custom SaaS applications, owning system design, data modeling, API design and delivery.
- Built CoreLinq Communications for multi-tenant email, voice and SMS orchestration, with outcome verification before follow-up actions, bounded recovery and human escalation.
- Built CoreLinq Scribe with AI-drafted clinical documentation, human editing and approval, and connections to inventory and practice operations.

Data and analytics leadership

Expedia Group | Vrbo | Austin TX

Apr 2021 - Jan 2025

Senior Manager, Supply and Commercial Data Science and Analytics

- Led supply and commercial analytics supporting market prioritization, property acquisition and business planning.
- Established an executive analytics function delivering regular insights for commercial strategy and resource allocation.
- Built and managed a team of six data scientists and established shared Python and SQL standards for analytics work.
- Led development of listing quality scoring to support property performance analysis and commercial prioritization.

Expedia Group | Vrbo | Austin TX

May 2019 - Apr 2021

Manager, Analytics and Data Science

- Developed market segmentation across more than 15 variables to identify and prioritize high-value property acquisition targets.
- Built regional reporting and analytics frameworks supporting sales visibility, prioritization and commercial decisions.
