

Matthew Rundle

Data and Analytics Leadership

Austin, TX | 949-734-0624 | matthewtrundle@gmail.com

[linkedin.com/in/matthewtrundle](https://www.linkedin.com/in/matthewtrundle) | Portfolio | GitHub

Data and analytics leader with more than 12 years across commercial analytics, team leadership and software delivery. Built and managed a team of six data scientists at Expedia Group and established executive reporting for market prioritization and resource allocation. Recent work includes production software at Western Magnetics and SaaS and AI workflows through Domain Labs.

Areas of focus

Analytics leadership | Team development | Executive reporting | Commercial prioritization | Applied AI

Data and analytics leadership

Expedia Group | Vrbo | Austin TX

Apr 2021 - Jan 2025

Senior Manager, Supply and Commercial Data Science and Analytics

- Built and managed a team of six data scientists and established shared Python and SQL standards for analytics work.
- Led supply and commercial analytics supporting market prioritization, property acquisition and business planning.
- Established an executive analytics function delivering regular insights for commercial strategy and resource allocation.
- Integrated disparate data sources into executive reporting to support consistent business decisions.
- Led development of listing quality scoring to support property performance analysis and commercial prioritization.

Expedia Group | Vrbo | Austin TX

May 2019 - Apr 2021

Manager, Analytics and Data Science

- Developed market segmentation across more than 15 variables to identify and prioritize high-value property acquisition targets.
- Built regional reporting and analytics frameworks supporting sales visibility, prioritization and commercial decisions.

Earlier experience

HomeAway and Vrbo

2018 - 2019

Global Reporting and Analytics Manager; Data Analyst II

National Instruments

2016 - 2018

Senior Consultant, Data Analytics

The Advisory Board Company

2013 - 2016

Senior Business Analyst

Recent software and AI delivery

Western Magnetics | Westmag

Jan 2026 - Present

Work focus: Manufacturing systems and applied AI

- Built and deployed the manufacturing execution system (MES) and ERP that run Western Magnetics' production, quality, purchasing, inventory and shipping workflows.
- Connected production, procurement, quality, traceability and factory operations through shared workflows and operational data.
- Worked directly with production staff from initial prototype through integration, hardening and rollout, translating factory processes into software used on the floor.

Domain Labs | Austin TX

2025

Founder, AI and SaaS Solutions

- Partnered with small businesses to design and build custom SaaS applications, owning system design, data modeling, API design and delivery.
- Built CoreLinq Communications for multi-tenant email, voice and SMS orchestration, with outcome verification before follow-up actions, bounded recovery and human escalation.
- Built CoreLinq Scribe with AI-drafted clinical documentation, human editing and approval, and connections to inventory and practice operations.

Skills

Analytics Python, SQL, Tableau, segmentation, experimentation, statistical analysis and analytics pipelines

Leadership Technical team development, shared analytics standards, executive communication and stakeholder management

Data and systems Data modeling, reporting integration, PostgreSQL, API design and operational workflows
